DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-3 and 6-10 rejected under 35 U.S.C. 102(b) as being anticipated by Reed for the same reasons set forth in the previous Office action.

Applicant argues on page 5 of his Remarks that Reed is different from the claimed invention because Reed's inner and outer tubular frame members 12,24 are of the same material. However, Reed clearly discloses an embodiment where the inside layer is different from the outside layer. See column 5, lines 21-25 where Reed sets forth a graphite resin composite material of the inside layer having a higher modulus than the outside layer. As such, because the inside layer and outside layer are different, the vibration wave transmission velocities are considered to be inherently different.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by You as applied in the previous Office action.

Elastic member 66 is wrapped around the middle portion of frame 62; cover layer 64 is wrapped around both frame 62 and elastic member 66. Because the frame, cover layer and elastic

member can be made of different materials, the vibration wave transmission velocities are considered to be inherently different. See column 3, lines 7-42.

Response to Arguments

4. Applicant's arguments filed 23 December 2004 have been fully considered but they are not persuasive.

Allowable Subject Matter

5. Claim 14 is allowed.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3711

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
